

It is unfair and undemocratic to make such a sweeping change to the media without inviting public comment, most people are not even aware that this is happening. Please do NOT vote to allow one company to own all the media outlets within a community. Each city, town, and county of this great country are extremely different in their media needs. To permit huge conglomerates to dictate what they think any particular area needs is not only unrealistic, it undermines the very nature of democracy. Thank you for your consideration.
